

BASSPRO GO HOME POWER ADAPTER

19V/3.42A In-Home AC Charging Power Supply with AC Cable

JBLSUBBPGOWALLCAM

Engineered for the ultimate sound experience

The JBL BassPro Go Home Power Adapter keeps your BassPro Go speaker charged and ready to take with you on every adventure. The AC power supply is designed to enable Bluetooth® streaming, while charging, to ensure your speaker is always charged and ready to go. With quick disconnect connector, and power supply with 8-foot cable length, JBL provides you with all of the tools you need for your active lifestyle.

Features

- ▶ AC Power Adapter with BassPro Go Connector
- ▶ Bluetooth® Streaming While Charging In-Home
- ▶ 8-foot Cable Length
- ▶ Compatible with JBL BassPro Go V2

BASSPRO GO HOME POWER ADAPTER

19V/3.42A In-Home AC Charging Power Supply with AC Cable

Features and Benefits

AC Power Adapter with BassPro Go Connector

JBL BassPro Go Home Power Adapter provides an AC power supply, with BassPro Go specific quick disconnect connector, to ensure your speaker is always charged and ready to go with you on every adventure.

Bluetooth® Streaming While Charging In-Home

For JBL, our goal is to always keep up with you and your active lifestyle. The specially designed power supply allows you to seamlessly integrate your BassPro Go speaker into every aspect of your active lifestyle, while allowing wireless Bluetooth streaming when your speaker needs to be charged at home.

8-foot Cable Length

Your JBL BassPro Go Home Power Adapter comes with a total cable of length of 8-feet which allows you to play your BassPro Go speaker wherever you want it, while enabling you to reach your wall outlet with ease.

Compatible with JBL BassPro Go V2

JBL BassPro Go Home Power Adapter is capable of charging JBL BassPro Go V2 speakers. If you have the original version, the software can be updated at the store it was purchased or by contacting JBL customer service.
