FCC AND IC INFORMATION FOR USERS

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This equipment may not cause harmful interference; and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC/IC Radiation Exposure Statement

This equipment complies with FCC/IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

FCC Caution:
High power radars are allocated as primary users of the 5.25 to 5.35 GHz and 5.65 to 5.85 GHz bands. These radar stations can cause interference with and/or damage this device. No configuration controls are provided for this wireless equipment allowing any change in the frequency of operations outside the FCC grant of authorization for US operation according to Part 15.407 of the FCC rules.

IC Caution:
User should also be advised that:
(i) The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems; (ii) the maximum antenna gain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz shall comply with the e.i.r.p. Limit; and (iii) The maximum antenna gain permitted for devices in the band 5725-5825 MHz shall comply with the e.i.r.p. Limits specified for

allocated as primary users (i.e. priority users) of the bands 5250-
5350 MHz and 5650-5850 MHz and that these radars could
cause interference and/or damage to LE-LAN devices.

**Exposure of humans to RF fields (RSS-102)**

The computers employ low gain integral antennas that do not
emit RF field in excess of Health Canada limits for the general
population; consult Safety Code 6, obtainable from Health
Canada's Website at http://www.hc-sc.gc.ca/
The radiated energy from the antennas connected to the wireless
adapters conforms to the IC limit of the RF exposure requirement
regarding IC RSS-102, Issue 5 clause 4. SAR tests are conducted
using recommended operating positions accepted by the FCC/
RSS with the device transmitting at its highest away from the
body. Non-compliance with the above restrictions may result in
a violation of FCC RF exposure guidelines.

**Use Restriction:** Attention in France, the operation is limited to
indoor use within the band 5150-5350 MHz.
