Focus™ 500 for Women

In-Ear Wireless Sport Headphones

Never hurts. Never falls out.

Presenting the Focus™ 500 for Women Sports Headphones, from yurbuds | powered by JBL, designed for smaller feminine ears. Whether you're running cross-country or hitting the bench, our secure TwistLock™ technology keeps these headphones in place – the ergonomic ear tips are guaranteed never to hurt or fall out, while superior materials provide quality endurance through sweat, water, and rain. You can also stream up to 8 hours of JBL Signature Sound over Bluetooth®, and the thoughtfully provided detachable clip keeps the cable manageable.

Features

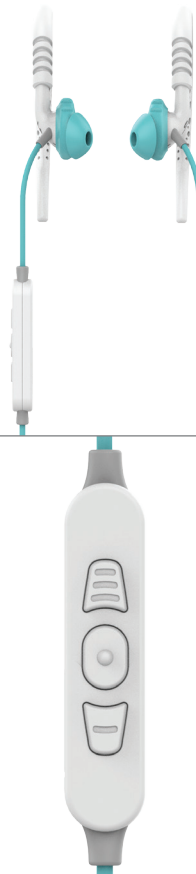

- ▶ TwistLock™ technology
- ▶ FlexSoft™
- ▶ Sweat Proof
- ▶ Microphone with music and track control
- ▶ 8-hour life smart battery
- ▶ JBL Signature Sound with Pure Bass performance
- ▶ Flexible for secure fit

Focus™ 500 for Women

In-Ear Wireless Sport Headphones

Features and Benefits

TwistLock™ technology

Our patented TwistLock™ technology provides a secure fit, ensuring these headphones never fall out even during the most rigorous physical activities.

FlexSoft™

Guaranteed never to hurt, these headphones are ergonomically designed to avoid nerve rich areas of the ear for long-lasting comfort. Made with ultra-soft medical-grade, flexible silicone to ensure a comfortable fit for hours on end.

Sweat Proof

Developed for training in any conditions, the Focus™ 500 endures through rain, water, and sweat.

Microphone with music and track control

The sweat and water resistant 3-button microphone system provides a new level of convenience for the multi-tasker. Through the click of a button, you're able to control phone calls and music tracks without breaking from your work-out. Compatible with most smart phones.

8-hour life smart battery

Our battery life is tested and proven to power a week's worth of workouts. Track the battery life with LED and audible indicators.

JBL Signature Sound with Pure Bass performance

For over 60 years, JBL has engineered precise, naturally articulated sound found in high-end cinemas, arenas and recording studios around the world.
