JBL® MICRO WIRELESS

Ultra-portable, 3-watt speaker with a Li-ion rechargeable battery, built-in bass port and wireless *Bluetooth*® connection

LEGENDARY SOUND SINCE 1946

MIGHTY MICRO.

Introducing the JBL® Micro Wireless ultra-portable speaker. With its built-in bass port and compact size, this speaker lets you take great JBL bass any place, and stream music wirelessly from any *Bluetooth*®-equipped device.

The JBL Micro Wireless is the first ultra-portable speaker featuring a Li-ion (lithium-ion) rechargeable battery, a built-in bass port and a wireless *Bluetooth* connection. With a 1-5/8-inch (40mm) driver and an acoustic volume of 100cc, it delivers legendary JBL sound with exceptional bass – all in a speaker that fits easily in backpacks or clips onto clothing. You can wirelessly stream audio to the speaker from any *Bluetooth*-equipped device, or use the included audio cable to connect it to any mobile device or MP3 player. You can even daisy-chain it with other JBL Micro Wireless speakers for a powerful sonic experience.

HIGHLIGHTS:

- *Bluetooth*® technology
- Built-in bass port
- 5-hour, Li-ion rechargeable battery
- Portable design
- Smart cable design
- LED indicator
- Daisy-chain capability

KEY FEATURES

JBL® MICRO WIRELESS

Hear the truth™

The JBL Micro Wireless is the ultimate wireless portable audio solution for indoor or outdoor playback – with performance, portability and pricing the competition can't touch.

Bluetooth® technology

The JBL Micro Wireless portable speaker streams music wirelessly from any *Bluetooth*-equipped device, making JBL sound available for a wide range of portable devices.

Built-in bass port

JBL speakers are famous for powerful bass. But it might surprise you to hear JBL bass this strong from a speaker this small. A built-in bass port enables the JBL Micro Wireless to generate bass that's superior to comparable portable products.

5-hour, Li-ion rechargeable battery

The JBL Micro Wireless portable speaker has a built-in Li-ion battery that provides up to five hours of playback time. The battery is easily recharged using a micro USB port, which saves you battery hassles and money.

Portable design

It's easy to get attached to JBL sound. The lightweight, compact JBL Micro Wireless fits easily into backpacks or pockets.

Smart cable design

The JBL Micro Wireless portable speaker is always ready to connect and play. And when your source device isn't connected, the built-in 11-13/16-inch (30cm) audio cable stores in the bottom of the speaker case to prevent tangling.

LED indicator

A clearly visible LED lets you know when the built-in Li-ion rechargeable battery is low, so you know when the JBL Micro Wireless needs charging.

Daisy-chain capability

If you want to add some "macro" to your Micro, the portable speaker can be connected to other JBL Micro Wireless speakers, creating an impressive sound environment.

SPECIFICATIONS

JBL® MICRO WIRELESS

Hear the truth™

Don't let the compact size fool you. Hearing is believing.
